

Enhanced File Transfer™ (EFT™) Enterprise

PRODUCT SUMMARY

Automation saves time and increases efficiency

With operational efficiency in mind, Globalscape's Enhanced File Transfer™ (EFT™) Enterprise features quick and intuitive setup, advanced automation capabilities, real-time visibility into data transfers, and much more. EFT Enterprise automatically handles daily tasks, so you can turn your attention to tomorrow's business needs today.

File transfer automation means security and compliance

EFT Enterprise has capabilities perfect for businesses that need automated secure file transfer software, high performance, and amazing load capacity. Some of our largest clients transfer thousands of files per second using EFT Enterprise.

Let EFT™ Enterprise manage file transfers, while you manage the rest of your network

Advanced capabilities can be added via optional modules for advanced automated workflows, AS2/EDI transfers, LDAP/RSA/CAC authentication, compliance monitoring, DLP/AV scanning, advanced reporting/auditing, PGP, and others.

Key Results

-  **Create automated workflows** without scripting
-  **Two-factor authentication**, folder monitor, scheduled transfers
-  **Integrate** with Active Directory, SharePoint, Microsoft Excel, SQL Server, and others
-  **You can be up and running** in hours instead of days
-  **Easy** administration and end-user interfaces
-  **On premises, in the cloud, and hybrid** options available

Access Points

- FTPS (SSL)
- HTTP/S
- SFTP (SSH)
- AS2
- Email
